International Hindu School

Nursery to XII, affiliated to CBSE New Delhi (Science, Commerce & Humanities)

Message from Dr. Suman Kumar Mishr
(President)

International Hindu School

Atma-Nirbhar Bharat

India has a large, intelligent young population and abundant natural resources. It is surrounded by countries that are full of negativity. India can be strong and self-reliant only if students at IHS are good in studies, have a strong character, and are self-reliant.

Students of International Hindu School Varanasi have to embrace local innovation, promote sustainability, and develop skills that foster self-reliance. They have to practice Yog daily.

Here are some suggestions to build an Atmnirbhar Bharat for IHS:

1. Promote Local Products and Crafts

- Use and advocate for Indian-made goods like Khadi clothing, handmade stationery, and local snacks.
- Organize school exhibitions showcasing regional art, crafts, and innovations.
- Encourage families and peers to support local businesses and artisans.

2. Sustainability Projects

- Create eco-friendly products from waste materials—like paper bags, compost bins, or recycled art.
- Start a school garden using organic methods at Hariya farm to learn about food self-sufficiency.
- Learn about Nutrition-Based farming at Hariya Farm.
- Conduct awareness drives on plastic reduction. Stop using plastic products.
- Water is very precious; we must learn ways of conservation. Learn about drip irrigation.

3. Skill Development and Innovation

- Participate in coding, robotics, and entrepreneurship clubs to build future-ready skills.
- Learn skills at the MSME center at Lahartara to be self-employed
- Develop simple tech solutions for local problems—like apps for neighborhood cleanliness, school safety, and following traffic rules.
- Join competitions like Atal Tinkering Labs or Smart India Hackathon to showcase ideas.

4. Educational Outreach

- Tutor underprivileged children in nearby communities to spread knowledge and empower others.
- Organize reading clubs or science fairs to spark curiosity and innovation.

5. Cultural and Civic Engagement

- Celebrate Indian festivals with a focus on heritage and sustainability.
- Volunteer in local cleanliness drives around your home, tree planting, or health awareness campaigns.
- Write essays, poems, or speeches on Atma Nirbhar Bharat to inspire peers.

Sample Project Ideas for Students

Use [Best Project Ideas Site](#), to learn a few fun and educational activities: Handmade cloth bags, reduce plastic use, DIY solar lamps, promote renewable energy, Local plant nursery, Terrace gardens, encourage green entrepreneurship, Waste-to-art crafts, Foster creativity and reuse, and study an Indian food recipe book.

Learn how to design a school campaign or project around one of these ideas. Learn draft posters, speeches, or even a plan for a student-led initiative.

Mission of the School

The Mission Of The International Hindu School is to instill the leadership, creativity, and courage in the minds of its young graduates and to give them a drive for a lifelong pursuit of knowledge with the spirit of Atmanirbhar Bharat (Self-Sufficient Country). We strive to create international citizens who follow Indian core values while maintaining a strong character and being law-abiding.
